

Testing scenario for the KFC mobile application

Date: 25.05.2022

1. Log in to the application.
2. Select "order and collect".
3. Choose restaurant which one is closest.
4. Choose to pick up your order to take away or in a restaurant (at your discretion).
5. Change the pickup time for your order. Set the time to any time, but it must be at least one hour after placing the order.
6. Add a few different products to cart.
7. Then go to the cart.
8. Select additional items that are proposed (optional).
9. Complete the data (if it has not done before).
10. Choose payment method.
11. After paying, wait for a text message that will confirm the order.
12. Check if the order is visible in the application in the "orders" tab.
