

Testing scenario for website usability tests: sending emails from Gmail

Date: 30.05.2022

1. Log in to your Gmail account.
2. Create a text message.
3. Verify the email address before sending the message.
4. Complete the title and content of the email. Both things should contain language-specific characters (e.g. from Polish: ą, ę, German: ü, ä, Russian: ш, ъ, Spanish: ñ etc.)
5. Format the text as you like.
6. The subject of the e-mail should not be empty.
7. Send emails with various attachments. Attach a photo, a text file, a link, using google drive. Preferably in different sizes. Check Confidential Mode and insert signature.
8. Check all attachments in the email.
9. Send an email.
